- 2.2 Cabinet are asked to approve the funding of capital expenditure for 2016/17 as set out in paragraph 3.4 of the report.

3 Explanation

- 3.1 This section of the report considers separately General Fund Schemes, Housing Schemes and funding. All schemes are set against the council's priorities and objectives reflected in the Business Plan and Medium Term Financial Strategy.

The General Fund outturn for 2016/17 was £23.202M and compares to a current budget of £23.632M. This is an under spend of £0.430M and primarily relates to re profiling of expenditure on Hatfield Town Centre acquisitions and redevelopment costs offset by higher costs spent in year on the Affordable Housing Programme.

3.2 Major Capital Schemes in year

- 3.2.1 Affordable Housing Programme: £14.449M was spent on the purchase of affordable housing properties in line with the Affordable Housing Scheme. Cabinet agreed on 7 August 2012 for the council to enter into agreement, as proposed by the Secretary of State for Communities and Local Government, to allow the council to retain receipts from the reinvigorated Right to Buy (RTB) sales and to reinvest the allowed receipts in delivery of new affordable homes. These receipts need to be spent within three years of receipt.
- 3.2.2 Hatfield Town Centre Redevelopment: £5.620M has been spent on various projects within the town centre in 2016/17. These include town centre regeneration costs and ongoing associated fees, the refurbishment of town centre flats and the purchase of Culpitt House. Hatfield Town Centre redevelopment schemes are continuing over the next two years with a budget of £1.6M for further refurbishments and public realm works.
- 3.2.3 Housing (Major Repairs Account)

The current budget is £11.113M and the outturn is £10.035M.

The main under spend of £0.965M is on the MEARS contract. This is in addition to the £0.950M already re profiled into 2017/18.

Major repairs are fully funded from the Major Repairs Allowance.

4 Legal Implication(s)

- 4.1 There are no direct legal implications arising from this report. However, virtually all projects will require legal input into procurement and contractual documentation.

5 Financial Implications

- 5.1 Financial risks associated with the capital budgets are contained in this report.

6 Risk Management

- 6.1 Financial risks associated with the capital programme are:
 - 6.1.1 Receipts are not received in the expected year and at the expected amount. If this occurs the implications on reserve levels need to be assessed along with whether alternative funding needs to be sought, this may have a cost to the Council.
 - 6.1.2 The capital programme does not fully spend the expected amount. This has an opportunity cost to the Council. If we have planned to finance from receipts and there has been slippage against the programme, the receipts could have financed other programmes. The implication of the funding not being utilised may mean unnecessary costs are incurred in the delay.
 - 6.1.3 Long term investment plans are based on anticipated levels of core cash, not committed to revenue or capital expenditure. Delays in capital programme spending therefore represent a lost opportunity to invest additional funds at higher long term interest rates.
 - 6.1.4 The capital programme spending is more than the expected amount. This will have implications on the cash and planning of the organisation. Additional sources of funding will have to be identified and there may be a cost to the Council.
- 6.2 Regular monitoring and reporting of the capital budget and funding are an important part of mitigating these risks.
- 6.3 A formal risk assessment has not been prepared in relation to the details in this report.
