

Here is the information from Oak View Primary School, Hatfield

1. Does your school take part in the Welwyn Hatfield Schools Sports Partnership and/or The School Games Competitions?

We participate in both as well as the Hatfield Primary Schools Sports Association competitions.

Our athletics team were county finalists at the Hertfordshire School Games last term (with Welwyn St Mary's)

2. If your school is not part of the Sports Partnership, what other provision do you make for sports and physical activity both in curriculum and outside curriculum time?

n/a

3. Do you feel that as a school you are meeting the Government's requirements with regards to the PE and sport premium for schools

Yes, we hope to achieve at least a silver Games Mark accreditation this year.

4. Does the provision you make remain constant throughout the year, or is it seasonal?

We plan annually so we know which events we are working towards either intra or inter sports. We are extremely active in the community and enter all events we are invited to. We send teams from Y2 to Y6 and sometimes whole year groups if the opportunity arises!

5. Do your students take part in activities outside of school? If so, please provide details of these if possible.

We host dance classes and provide children with information about local clubs e.g Saracens camps. Two of our children play for the District football team. Many attend football, swimming, dance, martial arts and gym clubs out of school.

6. Does your school provide after-school clubs that relate directly to sport and/or physical activity? Please provide a list of any organisation that runs that activity

We run our own clubs at lunchtime and after-school apart from FunkyKidz (dance).

7. Is there a difference in take-up of sport and physical activity between boys and girls?

In certain sports, yes. There are more boys at football and a few more girls than boys at the dance and netball club. All of the others are evenly balanced and we enter mixed teams when competing as a school.

8. Is there an age at which students' interest in sport and physical activity reduces?

Not in the primary phase.

If arranged at a convenient time, would you be willing to attend a scrutiny meeting to answer any further questions that the sub-committee might have?

Yes, very willing to promote sport in our area!

If you need further information please call / email me.
